| Eagle Mountain Public Library | 3.69 |
| Iron County Bookmobile Library | 2.47 |
| Helper City Library | 2.24 |
| Utah County Bookmobile Library | 1.10 |

NOTE: "Circulation per capita measures the number of items the library circulates in relation to the population of the community it primarily serves. In other words, if every person in the community borrowed an equal number of materials during the year, Circulation per capita would be the number of items each person borrowed. The number is calculated by dividing the Annual Circulation by the Jurisdiction Population." Zweizig, Douglas. Output measures for public libraries. Chicago: American Library Association, 1982.
